

Introducing Time for Kids Merger Project 2018

Time for Kids has been transforming the lives of disadvantaged children and young people for almost 60 years, by matching them in lasting, family-like relationships with volunteer carers and mentors that change their life direction and outcomes.

Since early 2015, the Time for Kids Board has been working to develop a long-term strategy to expand delivery of our programs to the many thousands of South Australian children who are in need of our help. Following an extended period of modelling and review, the Time for Kids Board has determined that a successful merger with another South Australian-led not for profit will create the best opportunity for us to build on our proud history and ensure Time for Kids' legacy for decades to come.

The Time for Kids Board will be focussing on implementing its merger strategy over 2018. To help keep our stakeholders informed and engaged in this significant strategic project, today we have launched the [Time for Kids Merger Project 2018 website](#) where we will be posting regular project updates and where you can submit your questions, comments and feedback for the Time for Kids Board. This is just part of a multi-faceted communications program that we will be rolling out over the coming months.

We are excited to be bringing this important initiative to you and hope you will share our enthusiasm for the future we're creating for Time for Kids and take an active interest in the work that we are doing.
